EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Alan Towner on June 4, 2007.

The application has been amended as follows:

Claims 4, 21-23, and 30-37 have been canceled in their entirety.

In Claim 1: The term "an articulation mechanism structured and arranged to allow articulation" has been replaced with—

an articulation means for allowing articulation —

In Claim 26: The term "means for articulating the lacrosse head" has been replaced with—

an articulation means for allowing articulation of the lacrosse head —

Articulation means for allowing articulation

Application/Control Number: 10/800,560

Art Unit: 3711

Reasons for Allowance

The prior art does not show or suggest a lacrosse stick head having the articulated attachment joint connection means as disclosed in the specification in addition to the other elements of the structure claimed. The applicant is invoking 112 6th paragraph means plus function claim terminology.
